TRUSTEES' REPORT.

The Trustees and Managers of the House of Industry beg herewith to submit their Annual Report to the subscribers and the general public; and in doing so, they have the satisfaction of congratulating them upon the continued prosperity of the Institution, and the very great measure of success which has attended its management. It has been the constant aim of the Board of Management to carry out fully and faithfully the objects of the charity, and while affording the utmost amount of relief in their power, to be very careful in investigating the merits of each individual case. The system of ward visitation has been rigidly adhered to, as in former years, with the best possible results; and in connection with this out-door relief, which is so very prominent a feature in the working of the institution, it may be well to state that, owing to the arrival of an unusually large number of immigrants in our midst, it has been found necessary to incur a serious additional expense to the usual outlay. Many of these persons, arriving late in the season, have found it impossible to meet with employment, and their hardship has been greatly aggravated in a large number of instances by serious sickness. In all cases of sickness, where a favorable report is returned by the ward visitor, additional food is allowed, as well as a liberal supply of groceries. The soup kitchen has been opened

as usual for the winter months, and a large amount of relief extended in this way to hundreds of families.

The Board would direct special attention to the detailed Reports of the Superintendent and the Medical Officer, for information as to the nature and amount of relief afforded by the charity. Both these Reports, together with that of the Treasurer (duly audited), are hereto attached.

It only remains to add, in conclusion, that the resident officers in the House have given the greatest satisfaction in the discharge of their duties.

E. HOBSON, *Chairman.*

A. J. BROUGHALL, *Secretary.*

TREASURER'S REPORT.

MR. HENRY ROWSELL, Treasurer, submitted his Statement of Receipts and Expenditure, in detail, with vouchers, duly audited and found correct. The balance on hand, 1st January, 1871, including previous year's balance, being $1,831.29.

MEDICAL OFFICER'S REPORT.

In accordance with the usual custom, I submit the Report of my labors for the past year.

As heretofore, I have visited the House regularly twice a week, and oftener when necessary, examining, prescribing, and making up medicines when required, for all who presented themselves, whether inmates of the House or those receiving outside relief.

A number of immigrants and others availed themselves of this privilege, and have been, in consequence, restored to health, and enabled to provide for themselves again. I have also, at the request of the Managers, visited many poor families at their own homes, in various parts of the city, from the Don to the Asylum, and, while reporting their cases to the Board, I have supplied them with needful medicines, which were always received with as much seeming gratitude and thankfulness as the more apparently needed fuel and food.

In no instance have I found imposition practised by those whom I have been requested thus to visit. Some of the cases were very distressing, and have been relieved, as far as possible, by the administration of medical and other comforts from the House.

I have been forced, in a few instances, to report an *exaggeration* of ailments on the part of those seeking help at the House on account of illness; but in no case

have I found illness *altogether* feigned, as in some previous years.

Several impostors, I believe, have applied, however, during the year, but when referred to me for examination, always failed to keep the appointment.

The general health of the inmates has been, on the whole, better than in former years. In the Spring, a number of acute diseases occurred, but since Midsummer, although fever has been very rife throughout the city and in the immediate vicinity of the House, yet, owing to the zealous care and watchfulness of the Superintendent, as to cleanliness and ventilation, the House of Industry has remained comparatively free from its invasion.

Fourteen have died during the year, and all from the effects of long impaired health ; thus,

1 Female,	aged	59	years,	died of	Apoplexy.
1 Male,	"	80	"	"	Senile Debility.

All which is respectfully submitted.

UZZIEL OGDEN, M.D.,
Medical Superintendent.
